## STATEMENT OF HEALTH, SAFETY, AND ENVIRONMENT

The Ponderosa Fire Department will provide a safe and healthy environment for every member and employee, and to abide by the accident prevention regulations set forth by Federal, State and Local Governments. We are sincerely interested in the safety and welfare of our members and believe that accident prevention is essential in maintaining an efficient operation.

It is this organization's requirement that all safety rules be strictly observed at all times, although it is impossible to publish a rule to cover every circumstance. If a safety rule has been omitted or overlooked, it does not excuse carelessness or lack of common sense in the performance of job duties.

You are urged to cooperate fully. Abuse of, or a disregard for rules is a violation of the PFD and will be treated accordingly. Your help in preventing accidents benefits not only yourself, but also your fellow members and the public, and we should all strive to make this organization accident free.

## ACKNOWLEDGEMENT OF SAFETY RULES AND STATEMENT OF HEALTH, SAFETY, AND ENVIRONMENT

I have received my copy of the General Safety Rules and Statement of Health, Safety and Environment. The rules have been explained to me, I am thoroughly familiar with them, and I will abide by them. I understand that violation of any of these rules can lead to dismissal.

## GENERAL SAFETY RULES

- A. Whenever you are involved in any accident that results in personal injury or damage to property, no matter how minor, the accident must be reported immediately. First aid treatment must be sought promptly.
- B. Report immediately any condition or practice you believe has the potential to cause injury or damage to personnel or equipment.
- C. Do not operate any equipment that in your opinion is not safe.
- D. All prescribed safety and personal protective equipment must be used when appropriate. All personal protective equipment must be maintained in safe working condition.
- E. Obey all department rules, governmental regulations, signs, markings and instructions. Be particularly familiar with those that apply directly to you.
- F. When involved in any lifting procedures, use the approved lifting technique, i.e., bend your knees, grasp the load firmly, and then raise the load, keeping your back as straight as possible. Obtain help from another member when lifting heavy loads. A generic single person lift load is 50 pounds.
- G. Do not engage in horseplay. Do not distract others from performing their tasks.
- H. Always use the right tools and equipment for the job. Use only those tools with which you are thoroughly familiar and have been trained to use.
- I. Good housekeeping should always be practiced. Return all tools, equipment, materials, etc. to their proper places.
- J. I have been provided with and I will attempt to understand the PFD Guidelines.
